Subject: GRTS Database for Section 319

Nicole – Please respond to all as I will be out of the office next week (May 26-30) and may not be able to respond to email quickly. For the Upper Animas, the remedial program has an IA with USACE and their contractor, CB&I to gather and organize data that has been collected in the Upper Animas watershed as a “prelude” to the scoping of an RI.

Towards that effort, the remedial program has asked USACE and their contractor have been requested to gather data and information that was not collected under the Superfund “umbrella” but under other programs. Karen Hamilton and Judy Bloom suggested that I contact you regarding 319 data for the Upper Animas. Can you send a link to that database to me and the others on this email?

Let me know if you have any Qs on this request? And feel free to call me on my cell phone next week – altho’ I may not be able to respond right away as I’ll be on agency travel at meetings and a conference. Thank you?

Paula Schmittiel
